ABOUT ME

Motivated final-year B.Tech CSE student at Hooghly Engineering & Technology College with hands-on experience building responsive web projects using HTML, CSS, and JavaScript, demonstrating a strong understanding of front-end development and user experience. Passionate about creating clean, efficient code and eager to contribute to web development teams through hands-on internships and project work.

EDUCATION

- B.Tech in CSE| Hooghly Engineering & Technology College (MAKAUT) | 2022 – 2026 | CGPA: 7.47
- Class XII (Science) | Auxilium Convent School, Bandel (CISCE) | 2022 | 87.5%
- Class X | Auxilium Convent School, Bandel (CISCE) | 2020 | 92.4%

TECHNICAL SKILLS

- Languages: C, Java
- Web: HTML, CSS, JavaScript
- Database: MySQL

PROJECTS

- **Weather Forecast:** Developed a responsive site using the OpenWeather API to display live temperature, humidity, and wind speed for searched cities; includes UI updates based on weather conditions.
- **AI Resume Test Generator:** Built a web application that enables users to upload their resumes, automatically generate multiple-choice questions from their skill set. This tool includes tab-switch detection to trigger real-time error handling, ensuring the user remains within the test context.

ACTIVITIES

- **CodeConquer 2025 – Online Hackathon by CodeCharcha:** Participated in this two-week virtual hackathon focused on solving real-world challenges like generative AI and distributed systems. Collaborated with teammates to ideate and build a working prototype under time constraints.

STRENGTHS

- Quick learner and adaptable
- Team collaboration and communication
